

Physician Well-Being During Sustained Crisis

Doctors for America

Ted Hamilton, MD

Dianne McCallister, MD

DeAnna Santana-Cebollero, PhD

The Coalition for
Physician
Well-Being

Learning Objectives

After this session, the attendees will be able to:

- Identify three administrative approaches to sustaining physicians in sustained crisis
- Identify the primary reasons physicians are called to the practice of medicine
- Identify emotional and spiritual tactics to help physicians retain their meaning and purpose (call) to medicine and support one another

Well-Being

We embrace physician wholeness, which we understand to encompass physical, mental, social, and spiritual health, and which supports the embodiment of our work as a ministry of healing.

Medicus Integra[©]

Hospitalizations of Patients with Confirmed COVID-19 by Month of First Admission and Age Group, United States, March 2020 - August 2021

ICU = Intensive Care Unit; IMV = Invasive Mechanical Ventilation

Data Source: Premier Healthcare Database Special COVID-19 Release (PHD-SR, release date 10/26/2021). The Premier Healthcare Database includes de-identified hospital-based inpatient and outpatient medical visits data from >800 hospitals across the U.S., representing approximately 20% of annual U.S. inpatient admissions. Data updates are received every two weeks, with a data lag time of approximately 6 weeks. Patient counts and proportions are updated accordingly. More information about the Premier Healthcare Database is available at: http://offers.premierinc.com/rs/381-NBB-525/images/PHD_COVID-19_White_Paper.pdf.

COVID-19 hospitalizations were defined as having International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) discharge diagnosis code B97.29 during March-April 2020 and code U07.1 on or after April 2020.

Due to small sample sizes, data for patients <18 years of age are not presented.

Summary of Learning Objectives

- 1) Strategy and Service
- 2) Meaning and Purpose
- 3) De-sourcing and Resourcing

Who We Are

Mission

To promote meaning, purpose and joy in the practice of medicine.

Vision

We envision an environment which promotes physician joy and wholeness in the compassionate service of healing.

History

The Coalition came together in 2010 when a small group of leaders from several faith-based, mission-focused hospitals and healthcare systems met to address growing concerns about physician burnout. A decision was made to bring our combined knowledge and experience together for the purpose of learning how to most effectively combat burnout and contribute to physician well-being.
