Video Introduction

Welcome to the DFA Dining Club, our discussion [today/tonight] is about “How to Play Offense in Your State Legislative Session”. We will get things going with a video and then we will walk through a few guided questions that will help get our conversation started on what we can do in [your state here].

Questions:

1. What do you see as the most important health related issues in our state?
2. How would you prioritize those issues?
3. State agencies are not allowed to lobby, but they can propose legislation through a legislator. How can we engage with our health department proactively to improve [issues in your state]?
4. What action(s) can we take to address [identified issues from Q#1]?
5. Let's brainstorm legislators and agency stakeholders that we should reach out to and talk about who and how we do the outreach.
